

MSc Business Analytics
Information Systems and Business Process Management

R Visualization Homework Assignment

PhD Candidate Panagiotis Sarantopoulos (psarantopoul@aueb.gr)

October 2015

Instructions

1. The assignment must be handed in via the program's e-Learning Portal. **No email attachments!**
2. The assignment must be handed in in the form of a **single** pdf report.
3. The assignment's submission due date is **Monday 2nd of November 2015 at 00:00** (Sunday midnight), no late submissions will be considered.
4. Make sure your **full name** and MSc in Business Analytics **code** is clearly visible in the cover page of your report.
5. The assignment consists of **two (2) parts** (make sure you submit both parts as a single pdf file).
6. Within the report, make use of **headings** to denote the different parts, problems, questions of the assignment and include all **relevant material** (graphs, R Script, free text, etc.).
7. Please try to produce a succinct, concise, and thoroughly **professional report**.

Part A (60% of the assignment's grade)

- The data set for Part A is the "parole.csv" file.
- The instructions for Part A can be found in the "Parole_Assignment_Instructions.pdf" file.

Part B (40% of the assignment's grade)

- The data sets for Part B are the "WHO.csv", "MVT.csv", "MURDERS.csv", and "INTALL.csv" files (we used some of them for the lab workshop).
- The instructions for Part B can be found in the "R Script and Comments" pdf files.

Good luck,

Panos
